Statement

Self-taught full-stack PHP developer with managerial experience looking for a role where he can both lead growth and keep growing as a developer.

Highlights

[Creating a full-featured SPA social shopping app](#)
[Built a SaaS from scratch with Stripe-powered recurring payments](#)
[Conceptualized, designed, built, and maintain dozens of websites](#)
[Code samples from various projects at Cloud 8 Sixteen](#)

Experience

Founder **Product Products** **2016-Present**
Building a full-featured single page application (SPA) social shopping app.

Technical Director **Cloud 8 Sixteen, Inc.** **2012-Present**
Hired and managed a 1-3 person team where I was responsible for all aspects of our client's sites: conceptualization, design, implementation, growth, and maintenance; implemented responsive design, git flow, and Gulp into our workflow; and built internal tools for our SEO, social, content, and sales departments.

Web Architect **Cloud 8 Sixteen, Inc.** **2011-2012**
Converted static designs and existing ASP.net sites to WordPress, developed a modular mobile theme framework, provisioned and maintained VPS instances, and maintained over 100 URLs.

Education

Art History **University of Houston** **2005-2007**
